AAC Role Play – Restaurant Order

By Scott Kuebler & Ronald Kuebler, CCC-SLP, ABDA

Program Abstract

Due to the limited number of conversational partners for AAC users and environmentally friendly settings for AAC users, familiarization with AAC users and methods is helpful for people in the community, workers and professionals. Scott will use his ChatPC and Ron will use the ChatPC on a laptop to role play ordering food in a restaurant. Attendees will have the opportunity to order restaurant food with an AAC user as customer with his device.
